## PhD Research Proposal for the Advisory Committee

(a) To allow the admissions team to check the feasibility and potential originality of the research;
(b) To ensure that we are able to allocate each successful applicant to an appropriate supervisor;
(c) To indicate the applicant's ability to write a clear, coherent and structured document; (see 1742-819x.en);
(d) To trigger State-of-the-Art: Common law jurisdictions, Criminal law & Criminal Justice, Jurisprudence, etc
(e) If (failed PhD admission), then (if material property shall be erased from memory).

Date of enrolment in PhD programme: Jan 2024, or asap
Expected date of completion: April 2027

Title of Proposed Research Project:
**Litigant Means for solving injustices: An impersonated Litigant shadowing Lex-Talionis Logic (1750 BC) of void Rule-of-Time & void Rule-of-Law, and acting in self-defense case vs perpetrators at an Al aided Open Court of Public Prosecution.**

Researcher: Dr Almossawi, H.I.H. (Yisrael, B.S)[1]
Supervisor: Professor(s) ( ) to be allocated ) Suggested Contact, of an open case of supervision
Department: School of Law

If (crime: actors), then (government, investors),
(if crime: victim), then (Rule-of-Law, Rule-of-Time, and void Rule-of-Law).

If (Statu: 429-547 BC) and (Kabbalah: 304-322 BC mentions), then (it shall be void Rule-of-Illusion, void Rule-of-Time, and void Rule-of-Law). If (reality), then (it shall be the end of dignity)

Conceptual thesis: based on Babylonian Law (Hebrew 1750 BC of void Rule of Time & void Rule of Law
If (applying SI-MKS), then (nature overrides Sl-base Newton Absolute Eternal Illusion Time)
Dedicated to every Judiciary system, Judges, & Old Bastard Barristers (Yisrael lived twice to help saves: 2024)

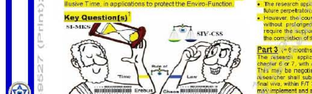
## Axioms of SIV Dimension: Lex-Talionis Logic of Void Rule-of-Time, aided Alterity of SIY-CSS vs SI-MKS measures, in Engineering Sciences, to regulate enviro-function

Almossawi H.I.H. (Yisrael, B.S.) 2024 The Global Pedagogy Journal ISSN: 1749-9527 & ISSN: 1742-819X, 1742-819x.eu & eprint.eu

**Keywords**
Absolute Eternal Illusive Newton Time, Lex-Talionis Logic, void Rule-of-Time, Alterity Engineering Mathematics Control Calculus, SIY-CSS vs SI-MKS, Old Testament & Instrument-of-Innovation, Enviro-Function

**Synopsis**, *Axioms of SI Yisrael Dimension*
The events of spooky action of Time, non-locality and sharing information of the Time-Travel seem to fail the e-security systems and economy. Newton's Time and Space are poorly understood concepts; Time and Zero indicate illusion of no quanta, and no one experiment can be 100% replicated. If (Time does not exist), then (Space and Time are void conceptual illusion). The aim is the Alterity measures of void Rule-of-Time base Illusive Time, in applications to protect the Enviro-Function.

**Key Question(s)**



**Statement of PhD Enqm Doctrine**
This UNESCO R&D project results from an updated findings, which may indicated that the theory of control aim to Alterity have to be based on Yisrael Dimension rather than void Rule-of-Time base Illusive Newton's Time. This research aims to illustrate the complexity of engineering doctrine approaches in the development of critical voices of evolve reasoning, innovation, theory and transcription. What is apparent is the influence of competing discourses, place and space, relationships, and contemporary research that operate to shape engineering practices: shedding light on the tensions and embedded assumptions that are largely taken for granted in the literature and in institutional practices of regulation. For which several themes arose from this research. The author use to offer learners starting points for further applications. A foresight conclusion of this proposal is forwarded within a summary, and its recommendation is within a Pandora-box of unlimited applications. The conceptual R&D has the following aims of Engineering Doctrine:

**Part 1** (≈ 6 months of 3 years)
- Task 1 = R&D Proposal
- Task 1 = tool-of-confidence, of void Rule-Time
- Task 2 = tool-of-out, of void Rule-of-Illusive Time
- Task 3 = Pro-Biblical tool-of-logic, of operating (if-then)
- Task 4 = tool-of-Law, of Alterity (1750 BC of Hebrew meaning
- Task 5 = Alterity of Time, cause-in-effect, Engineering Maths

**Part 2** (≈ 2 of 3 years)
- the research approach will resume, modelling SIY-CSS vs SI-MKS after training, the role of doctrine;
- the research applicant may require a legal support with international Patent Agent due to subsequent rules;
- the research applicant shall the case of Patent Application, may require the support of new legislation that may continue beyond the completion of this work.

**Part 3** (≈ 1 of 3 years)
The research applicant mop-up the case, and to be re-edited as chapter 6 or 7, with a further chapter of conclusion and future work. This may be negotiated with school of Engineering Sciences. The researcher shall submit the full hardcopy of printed PhD thesis for final viva, within 4/7 3-years. If granted success, then the researcher may implement and apply related findings.

**In conclusion**, this R&D proposal for PhD-in-Engineering, or Engineering-Doctorate, stands for ground breaking concepts, jumping off from the legal logic of Lex-Talionis 1750 BC, for which the Applicant subconsciously innovated the advanced means of SIY-CSS vs SI-MKS. The events of spooky action of Time, non-locality and sharing information of the Time-Travel seem to fail the e-security systems and economy. Newton's Time and Space are poorly understood concepts; Time and Zero indicate illusion of no quanta, and no one experiment can be 100% replicated. The Applicant acts to change legal status-quo by removing the legal illusion from Pilatus-Herodus, to the Alterity of prosperous civilization to come. The applicant introduced new mathematical engineering and control and means of measures. For this unique and Nobel UNESCO project of Jerusalem Temple Mount, the research applicant do qualifying his candidacy for PhD-in-Engineering under the applicable supervision (open). A PhD Proposal and Bibliography are available on demand, and applicant request an interview.

**Future work** (Expectation)
If (future timeless existence), then (it should be distant from void Illusion). This may progress in the applications of maths and control engineering. The Alterity tools and systems of measurements may also progress the innovation as standard, international, to award regulators and law-enforcements. The Alterity parameters of SIY-CSS vs SI-MKS may also reveal new data and discoveries that stand for the enviro-function. Future work and applications may include Alterity-based AI-base-engineering of the event of the instance. This may open Pandora-box of endless applications of enviro-function that will save resources with progressive understanding of the material modification of Periodic Table of rare elements. See also sites address 1742-819x.eu & eprint.eu

## R&D (Engineering-Doctrine) Proposal for the Advisory Committee

(a) To allow the admissions team to check the feasibility and potential originality of the research;
(b) To ensure that we are able to allocate each successful applicant to an appropriate supervisor;
(c) To indicate the applicant's ability to write a clear, coherent and structured document;
(d) To trigger State-of-the-Art: Engineering Sciences and the Art (see 1742-819x.eu); &
(e) If (failed PhD admission), then (if material property shall be erased from memory), avoid liability

Date of Enrolment in PhD programme: asap **2024**
Expected date of completion by: end **2027**

Title of Proposed Doctoral R&D Project: **(Extra-Terrestrial Engineering Doctrine)**

**Axioms of SIV Dimension: Lex-Talionis Logic of Void Rule-of-Time, aided Alterity of SIY-CSS vs SI-MKS measures, in Engineering Sciences, to regulate enviro-function**

Researcher: Almossawi, H.I.H. (Yisrael, B.S.)
Supervisor: Professor(s) (if none then tacit supervisory practices) suggest contact, or an open case
Department: School of Engineering

If (law is tool-doctor + management-sensitive + human management), then (all tool legal-boom, if crime: victim + time-guilty-element, then (if Pilatus 429-547 BC and Pilatus 304-322 BC mentions), then (void Rule-of-Law, void Rule-of-Time, and void Rule-of-Law). If (reality), then (it shall be the end of dignity)

Conceptual Doctrine Based on Babylonian Law (Hebrew 1750 BC of void Rule-of-Time & void Rule-of-Law
If (applying SI-MKS), then (nature overrides Sl-base Newton Absolute Eternal Illusive Time)
